PUB TYPE	Guides - Classroom - Teacher (052) -- Non-Print Media (100)
EDRS PRICE	Document Not Available from EDRS.
DESCRIPTORS	Astronomy; Earth Science; *Ecology; Elementary Education; *Environmental Education; Hands on Science; *Science Activities; Science and Society; Science Instruction; *Scientific Concepts; *Space Sciences; Videotape Recordings
IDENTIFIERS	*Earth

ABSTRACT

This 23-minute videotape gives children (grades K-4) a close-up look at what makes the third planet from the sun so special. The answers to the following questions are discussed: (1) Why is there life on Earth? (2) What is our planet made of? and (3) How does the Earth fit into the rest of the universe? A hands-on activity that describes how to build a biosphere is also included. This program is based on the concepts outlined in the National Science Education Content Standards for Earth Science: Properties of Earth Materials, Objects in the Sky, and Changes in Earth and Sky. (WRM)
